

MARATHON STUDY

Study staff from St. Boniface General Hospital are conducting a research study involving 15 healthy participants who will be running the Full Manitoba Marathon on Sunday, June 19, 2011.

Participants must be greater than 50 years of age, completed 2 marathons in the past 2 years, in good health and willing to undergo study related procedures.

If you are interested in participating or would like more information regarding the Marathon study being conducted by Dr. DS. Jassal please contact the study staff at
(204) 237-2023.
