### Equipment Report

---

Sam Neis has unfortunately resigned from his position as Equipment Manager due to personal reasons.

- We have not yet posted or shared this job description. We were holding out hope that he might change his mind once things calm down in the new year.
- We do think we should be able to make it through the indoor season without the position, although there is a good chunk of repair work that will need to get sorted out.
  - Staff members will try to complete as many of the urgent repairs as possible.
  - Brooke-Lynn Boyd will be assisting with indoor competition inventory in preparation for the competition season.

The new netting for the indoor throws cage has been successfully installed! We had some help from a variety of coaches and athletes – so that was much appreciated.

Outdoor throwing cage was successfully raised and lowered this season! Everything has been packed away for the winter.

New netting for the permanent (north) cage has been ordered. That will be a big spring project.

Respectfully Submitted,  
Alanna Boudreau - Nov 15<sup>th</sup>, 2021
