Athletics Manitoba Physical Literacy Grant Application

Deadline Date: January 31st 2022

Athletics Manitoba offers a physical literacy grant for schools and programs that need equipment, materials, and training to teach fundamental movement skills safely and effectively to students. Physical literacy is an important part of development for kids, teaching them the skills need to effectively move and stay physically active throughout their life. Athletics Manitoba believes that track and field programs can teach physical literacy among many other life skills. We are offering grants ranging from \$500-\$1000 to school programs that need support to continue offering track and field programming. Please fill out the questions below, as well as the budget outline attached and send back to programs@athleticsmanitoba.com on or before January 31st 2022.

1. School Name
2. Applicants Name
3. How are you offering physical education this year (online, in-person, combination of both)?
4. What (equipment, materials, training) would help you better offer programming this year?
5. Describe what you would use the funding for to offer track and field training to students?
6. Please indicate how much you are asking for from this grant.
7. Please attach a brief budget for your project using the table provided below.

Any additional questions can be directed to Michael Kananoja at programs@athleticsmanitoba.com.
