Athletics Manitoba AGM – Awards Committee Report

Actions Completed in 2022

This year we placed the call for members of the Awards Subcommittee of the Board and received applications from multiple individuals. In total, we currently have 8 members including our office staff who have been able to attend meetings.

We have had three meetings since our first in February of 2022. We have made and clarified our terms of reference, completed an excel document of external awards for nomination of Athletics Manitoba winners, and begun work on the Hall of Fame project the 2022 summer students started. In the short time this group has been together, we have been successful in the induction of Chris McCubbins to the Canadian Master's Hall of Fame and have included applications of several other Athletics Manitoba members for external award review.

The Hall of Fame project is currently our major project and work has included reviewing Hall of Fame processes of other organizations to understand best and common practices, developing a framework for nomination and inductee criteria, and determining our first batch of inductees. This work will continue into the 2022-2023 season, as we plan to host our first induction event and formalize the nomination process for Hall of Fame members of the Athletics Manitoba community.

I look forward to continued work on the Hall of Fame project, assistance with the office in the annual awards banquet, and completing external nomination packages to ensure appropriate provincial and national recognition for Athletics Manitoba members!

Tegan Turner
Co-Chair of Athletics Manitoba Awards Subcommittee
