Additional Equipment notes &/or plans for 25/26

Work is ongoing at the University of MB on the outside throwing area.
Additional work is also being scheduled for much needed repairs on the track surface.

A grant was secured through the Canada Summer Games Legacy fund to support specific equipment purchases for Photo Timing equipment.

New 700g javelins (the new specifications) as well as a variety of training hammers are in the process of being purchased as we speak.

Additional horizontal jumps take off boards have been manufactured for the outdoor facility.
A new/replacement plyo box was built, one or two more have been requested.
